

Volkmar Hasse
Director, GTZ Proklima

Volkmar Hasse has been directing the Proklima program since 2003. For 27 years he has implemented various GTZ programs, living in five developing countries. He holds a PhD in Applied Biology.

Biography

Proklima is a GTZ program commissioned by the German Ministry for Economic Cooperation and Development. It currently assists about 30 countries in complying with their obligations under the Montreal Protocol. 9 projects of the International Climate Initiative of the German Ministry of the Environment were added in 2008 and are currently under implementation. Since its inception in 1996, Proklima has developed and promoted concepts and technologies addressing equally important environmental, health and social issues.
