

Lambert Kuijpers

Co-Chair, Technology and Economic Assessment Panel (TEAP)

Biography

After receiving his PhD thesis for work on nuclear fusion at the Technical University Eindhoven, Lambert Kuijpers started work in the 1980s at Philips Research Labs Eindhoven, NL. He steered a research group dealing with heat transfer and thermodynamics, specifically in the area of refrigeration. Since 1988-89, Kuijpers has been particularly involved in the Technology and Economic Assessment Panel (TEAP) and the Refrigeration Technical Options Committee under the Montreal Protocol, which he both co-chairs. After having left Philips (in 1993) the work for UNEP has been the main emphasis (co-chairmanships of Panel, Committee and Task Forces).

Presentation

"2010-2020 - A new Decade of Changes in Refrigeration"

Session

"Policy Frameworks for Natural Refrigerants"

Mo, 19 October

9 am

Conference

www.atmosphere2009.com
