

Biography

Rajendra Shende

Head, OzonAction, United Nations Environment Programme

Rajendra Shende is a Chemical Engineer graduate from the prestigious Indian Institute of Technology. He then gained extensive and varied corporate business experience that included mainstreaming of cleaner production, environmental impact assessment, energy efficiency, and renewable energy in the manufacturing processes. After a stint at corporate management level, he joined the international programme at UNEP Division of Technology, Industry and Economy in Paris in 1992. He is a policy advisor to the developing countries and countries with economies in transition in implementing the Montreal Protocol. Expert on international technology transfer and technology cooperation to deploy the environment friendly technologies, he built the OzonAction Programme.
